The unusual price of \$275 a lot is but slightly higher than original opening prices, and it will climb to much higher levels in the near future. The great amount of sales daily coming in is far in excess of our expectations, but the development is large—seven and a half miles along the shores of Lake Okeechobee—and there are many choice lots left for those who act now.

\$55 \$55

You can secure a homesite cheap if that is what you want, or insure a good investment if that is what you seek. In either case you are afforded an investment in the center of the fastest developing section of Florida and an investment promising most liberal returns on a very small purchasing price. Okeechobee Shores is YOUR opportunity. Don't hesitate. Call upon our nearest representative NOW.
