

OKEECHOBEE

This Farm \$200

ABOVE is shown a typical five-acre Truck Farm laid out as it can be cultivated. The crops depicted are not by any means all that may be raised on this extraordinary fertile land. Simply astonishing results have been obtained on soil not far from ALLENTOWN from tomatoes, string beans and similar vegetables. On the land mentioned it is not uncommon for as much as \$1,000 an acre to be obtained.

On Palm Beach County land, which in most parts cannot begin to compare with the fine growing soil around the northwestern side of Lake Okeechobee, on which ALLENTOWN is located, a recent year's checking up by a well known Palm Beach bank showed that thirteen crops of vegetables produced an average of \$400 per acre. Many brought very much more.

Four crops a year here are not uncommon. The magnificent climate is responsible, as much as the amazing soil, for the marvelous harvests.

ALLENTOWN is not far distant from Okeechobee City with two railroads and from Moorehaven with a railroad, chamber of commerce, newspaper and other modern city conveniences. The A. C. L. railroad at Palmdale is not far away.

There are eager markets at top prices for all that can be grown here. There is a particularly active demand for vegetables "out of season" at high prices, for use in the northern markets.

Properly cultivated, a rich five-acre ALLENTOWN truck farm should make the lucky buyer independent for life. Or if he elects to hold for resale the opportunity for enormous profits is better than in any similar investment in Florida, INVESTIGATE.

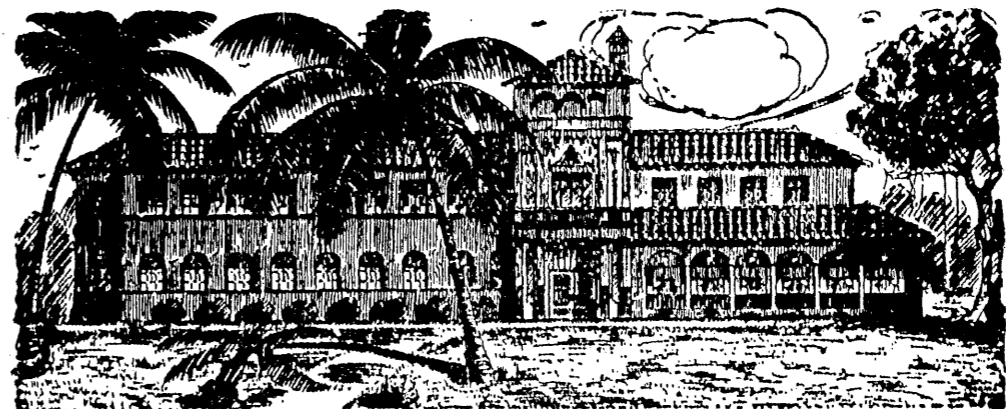

cash, and balance \$26-70 a month! At \$1,000 each these 5-acre farms are the best "buy" for enormous and quick profits in all the amazing State of Florida!

ALLENTOWN

"The City of Contentment"

The townsite of ALLENTOWN is ready for sale

The townsite of ALLENTOWN has now been platted and made ready for the sale of lots. It will be put on the market in a few days under conditions that will cause attention throughout the entire state of Florida. Watch for announcements. Meantime contracts have been let for roads, streets, sidewalks, electric lighting system and water system with reservoir and pumps. The architects are preparing plans for the hotel, agricultural school, town hall, community center and other public buildings. Look out for future advertisements. They will be interesting. ALLENTOWN is about to become "Queen of the Lake Region" to the "very limit."

This is an artist's drawing of the ALLENTOWN Hotel for which plans have been drawn by a well known firm of Miami architects. It will be situated right in the heart of the townsite. It will have 30 rooms and every modern hotel convenience.

Avoid paying \$1250 for your farm Nov. 15

Prices may go up any day without further notice. It is advisable to make your reservation NOW.
