FLORIDA SYNODICAL MEETS AT QUINCY

MISS AGNES DAVIDSON IS ELECTED TO PRESIDENCY

Tampa Chosen for Next Annual Gathering to Be Held in November of the Coming Year

QUINCY, Nov. 10.—The fourth annual meeting of the Florida Synodical Auxiliary opened on Tuesday evening with fifteen delegates in attendance, besides many visitors.

May speakers of note were present and made the addresses, among whom were Mrs. H. C. Winsborough, superintendent of Woman's Auxiliary, Atlanta, Ga.; Rev. W. S. Patterson, of Mason, a member of the Executive Committee on Woman's Work; Miss Mabel Hat, worker in the Guerrant Island Mission.

The following officers were elected for the coming year: President, Miss Agnes Davidson; secretary, Mrs. C. E. Dosey; treasurer, Mrs. J. W. Smoock; secretary of Foreign Missions, Mrs. John; secretary Christian education and ministerial relief, Mrs. C. J. McCormick; secretary Assembly's Home Missions, Mrs. R. J. McMasters; secretary Young People's and Sunday school session, Mrs. J. W. Pope; secretary Synodical Epworth League, Mrs. P. A. McCall; secretary Home Missions, Mrs. F. A. McLain; historian, Mrs. Arthur Williams. The next meeting of the Synodical will be held in the First Presbyterian Church of Tampa in November, 1918.

The following accredited delegates were present: Miss Agnes Davidson, Jacksonville; Mrs. C. R. Knight, Tampa; Mrs. A. S. Harris, Jacksonville; Mrs. C. E. Dosey, Jacksonville; Mrs. M. McLeod, Bartow; Mrs. E. P. McQuinn, Mrs. R. C. Maxwell, Sand Springs; Mrs. J. L. Fobbes, Jacksonville; Mrs. L. L. Bauknight, Archerfield; Mrs. John Richardson, DeFuniak Springs; Mrs. F. C. Galloway, Chipley; Mrs. D. J. Blackwell, Quincy; Mrs. V. S. F. Patterson, Madison; Mrs. N. McDonald, Bonifay; Mrs. Robt. McCaskill, DeFuniak Springs.

Thimble, butt and Jeers and Jokes, Jeonon squirms, Buggles now with other folks friendly terms.

LIES! SECRET TO DARKEN GRAY HAIR

Bring back color, gloss and youthfulness with Grandma's recipe of Sage and Sulphur

Common garden sage brewed into a jay tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur receipt at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients. A large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of mess.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge with it and draw it through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application of two your hair becomes beautifully dark, glossy, soft and luxuriant, and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

\$100 PER ACRE IS PROFIT IN COTTON

EXPERIENCE OF DR. NEAL AND AT THONOTOSASSA

Grows Sea Island Staple—County Board Discusses Castor Bean As a Commercial Crop

THONOTOSASSA, Nov. 8.—(Special)—Thursday's meeting of the County Board of Trade marked another onward step in the history of this progressive organization when a large number of prominent farmers and business men representing many sections of Hillsborough County met in the Board of Trade Building at Thonotosassa.

The meeting was called to order by President F. L. Brandon of Brandon at 10 p. m. W. H. Stacey, on behalf of the Board of Trade, welcomed the delegates with a few well spoken words, the response being made by W. F. Miller of Valrico. After the routine business was disposed of the president called the attention of the delegates to a discussion of the castor bean situation held at former meeting, and the fact was brought out that the commercial castor bean had so far responded very satisfactorily to experimental plantings in various parts of the State, though the experiments had not been carried far enough to tell what the yield would be. On account of the fact that the castor bean is practically the only source of oil suitable for use on aeroplanes motors, much attention has been directed in Florida to the growing of this product on a commercial basis and Northern establishments are looking largely to this State to produce the oil necessary for the nation's large aerial fleet. Dr. Stockberger of Washington is conducting investigations for the government, and will make a special trip to Florida to familiarize himself with the situation and confer with the growers, and doubtless Florida will be called upon to supply a large percentage of this product.

One of the matters claiming the attention of the delegates was the report of President Wolf of the Tampa Wool Growers' Association, who stated that the sheep club operations of some of the largest wool manufacturers of the country had resulted in the bringing of many high grade sheep into the South and a broader knowledge of this branch of agriculture and its possibilities. Mr. Wolf stated that the results in the first year had been so successful that a third campaign was being planned whereby Florida boys would be given training in the raising of sheep, and would be in line for winning high-grade sheep for introduction into Florida and for the breeding up of Florida's present sheep industry.

Much interest in Cotton Growing. Warm interest was manifested in the subject of cotton-growing, and efforts are being made to insure a large planting in Hillsborough County in 1918. Some interesting facts and figures were brought out by Dr. J. H. Nealand, who this season has an eight-acre cotton field adjoining the Board of Trade Building, from which he reported a yield of approximately three bales of Sea Island or long staple cotton in 1918. While the South Florida is adapted to both varieties, efforts are being made to unify the plantings in the different sections for the reasons that separate gins are required for the long and short varieties. It was reported that a special meeting to take definite action on this matter will be held at Valrico Saturday, November 10, at 7 p. m., and an invitation was extended all interested parties to attend.

A report on the livestock market showed that unless radical changes could be brought about, the Florida farmer in the coming year, labor under conditions that would be unfair to the Southern hog-raiser as compared with his Northern brother, for while the Kansas City markets stood around twenty cents per pound, the Southern markets only offered prices around ten cents. With this condition in mind, the farmers of the county, it is realized that but small inducement would be offered the man who goes in for producing a high class of pork instead of the razorback variety, as the small difference in price per pound would not justify the additional labor and necessary expense in producing the higher grade. Some interesting information was submitted in regard to the operations of a plant at Clearwater, where it was stated, the farmers of Pinellas County could have their meat cured at home for a nominal price, the company having the advantage of this opportunity, and the fact that the company in charge of this plant had a ready market for all meat they could furnish at prices upwards of thirty cents per pound, the farmers of Pinellas County and the territory contiguous are assured of the advantages of this opportunity, and the fact that the company in charge of this plant had a ready market for all meat they could furnish at prices upwards of thirty cents per pound, the farmers of Pinellas County and the territory contiguous are assured of the advantages of this opportunity.

Realizing that only through co-operation and united effort can the greatest good be accomplished, the officers of the County Board will strive to build up an organization that will have the advantage of this opportunity, and the fact that the company in charge of this plant had a ready market for all meat they could furnish at prices upwards of thirty cents per pound, the farmers of Pinellas County and the territory contiguous are assured of the advantages of this opportunity.

After adjournment the delegates were served with appetizing sandwiches prepared by the ladies of Thonotosassa.

W. T. Wilder was in town Monday and dropped down to the Herald office and presented us with a purple top globe turning a bright thirty-four inch in height and a very remarkable in circumference. The top would make a moss of greens for the average family. The turnip grew in sixty days from planting on cowpen land that was fertilized with cottonseed meal and 100 lbs. acid phosphate at the rate of 100 lbs. to the acre. Mr. Wilder stated that he found a good market for his crop, with which he is much pleased, having disposed of many at Carbur and the Blue Creek Log camp.—Perry Herald.

Large advertisement for Tampa Bay Coffee. Features the word 'COFFEE' in large letters, 'DELICIOUS' in a curve, and 'TAMPA BAY COFFEE' in bold. Includes an image of a coffee tin and the text 'Has Not Advanced in Price' and 'You Will Save Sugar and Cream If You Really Enjoy GOOD COFFEE'. At the bottom, it says 'Sold by Most Grocers' and 'The Name "Triumph Mills, Tampa," on each can guarantees Purity, Quality, Deliciousness'.

FIND SWORD AND MUSKET RELIC OF INDIAN WARS

HAD LAIN IN LAKE OKEECHOBEE FOR YEARS

Hilt of Sword Bears Initials "J. W.," and the Inscription "Newberry Port"

BOWLING GREEN, Nov. 10.—(Special)—The State Bank of Bowling Green is in possession of a bit of relic of the Battle of Okeechobee during the Seminole War, and which occurred at Lake Okeechobee in 1836. It is in the shape of an old flint and steel musket, and also a sword which is nearly three feet in length; both of which were dug up on what is presumed was at one time the shore, or near by, of Lake Okeechobee, recently by a citizen of this town, Robert Ken; who has sent the gun and sword to his father Samuel Ken, who now resides in Bowling Green and who has loaned it to the bank as a curiosity.

IS EPILEPSY CONQUERED?

New Jersey Physician Said to Have Many Cures to His Credit

RED BANK, N. J.—(Special)—Advice from every direction fully confirms previous reports that the remarkable treatment for epilepsy being administered by the consulting physician of the Kline Laboratories of this city is achieving wonderful results. Old and stubborn cases have been greatly benefited and many patients claim to have been entirely cured.

FORT MYERS GOLF COURSE COMPLETED

BEAUTIFUL EIGHTEEN-HOLE COURSE COST \$50,000

\$15,000 Club House to Be Built By January—Gov. Catts to Visit Fort Myers

FACE PAINT TABOOED Remove Skin Instead

"A few years ago only one class of women painted their faces," says Dolly Madison. "It was a sign of social ostracism and was tabooed in refined circles. The custom has become so universal we must admit it is to be deplored and to be shamed as soon as possible."

CURED HIS RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation, traces of me, a good, finally, I got hold of a medicine, I took it and was completely cured me. Years have passed and the rupture has never returned. Although I am doing hard work as a carpenter. There was no operation, no loss of time, no trouble. I have nothing to tell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Fullon, Carpenter, 33-D, Broadway Avenue, Manassas, N. J. Better out this notice and show it to any other who are ruptured—you may save a life, or at least stop the misery of rupture and the worry and danger of an operation.
