and

**No Interest for 2 yrs.**

A TITLE GUARANTEE POLICY  
WITH EVERY DEED

### Why These Tracts Will Make You Money

They have the two essential points needed to make farm land extremely valuable.

First—EXCELLENT SOIL—A sandy loam, open dry prairie requiring no drainage and easily cleared. Will produce four crops annually of a total value of \$500 to \$1,500 per acre.

Second—CLOSE to MARKETS and HIGHWAYS—9 miles from the rapidly growing city of Okeechobee, 3 miles from Fort Bassenger on the Seaboard Railroad, 2 miles north of the great cross state highway, State Road 8, and just east of the \$7,000,000 Curtiss - Bright Dairy Development.

Such land will undoubtedly sell shortly for more than its crop value.
