SHERIFF PURSUADES POSSE TO RELEASE HIS NEGRO PRISONER

MONTICELLO, Miss., June 1.—After a mob of masked men held up his automobile and took a negro prisoner near New Hebron, Miss., late Saturday, ostensibly for lynching, J. M. Brewer, sheriff of Lawrence county, persuaded the members to lash Moose Dampier, the

negro, and repair the automobile so the trip to jail could be made. Dampier had been given a hearing in New Hebron on the charge of shooting at a white man, the bullet scratching the tip of his nose. On the way to Monticello, the county seat, an armed mob appeared, took the negro and prepared for the lynching in the woods. Persuasion by the sheriff changed the lynching to a whipping with a buggy trace and saved the prisoner's life.

CAN'T TURPENTINE LAND UNTIL TAXES ARE PAID

SENATE PASSES IMPORTANT MEASURE

Carlton Bill for Boiler Inspection Passes House—Other Matters

(By Herbert Felkel)
TALLAHASSEE, June 1.—(Special).—Senator MacWilliams Saturday introduced and passed a bill making it unlawful for any person, firm or corporation to turpentine, lumber or otherwise work lands which have been sold for taxes until they shall have been redeemed by the payment of such taxes. The rules were waived and the measure advanced through second and third reading, and later its passage, ordered certified to the house. The bill provides a penalty that any violator of the act and corporation if necessary, a misdemeanor.

The house concurrent resolution, adopted by that body early in the session and calling for suit to be laid against the East Coast Canal Company, with a view to having a receiver appointed as a result of that company's total failure to fulfill its contract with the state, was indefinitely postponed by the senate on motion of a member of the committee that had reported it, with recommendation that it do not pass. Senator Hughlett introduced, and passed, under waiver of the rules, a bill authorizing Dade county to issue interest-bearing time warrants to the amount of \$108,000. A message from the house stated that that body had passed the Carlton bill relative to inspection and uniformity of boilers, but some of the senators understood that the measure had been indefinitely postponed in the house, and the message was sent back for verification. By motion of Senator Malone, the senate concurred in the house amendments to the bill relative to the pay of county solicitors.

HOLD-OVER SENATORS CAUCUS OVER PLANS FOR 1921 PATRONAGE

(By Herbert Felkel)
TALLAHASSEE, June 1.—(Special).—At the adjournment of the afternoon session of the senate Saturday the senators who will be holdovers in 1921 caucused for the purpose of dividing up the patronage for the next legislative session so far as attaches of the senate are concerned. They drew lots, one receiving a clerk, another a stenographer, another a page, etc., according to the custom of years. They will bring with them to Tallahassee the applicants for these positions at the beginning of the 1921 session. The senators themselves do not know now who the attaches will be. The secretary and reading clerk are not included in this patronage, being elected each session by all the senators.

DISPUTE ON RECLAIMED SHORES OF OKEECHOBEE

LAKE FRONT OWNERS NOW MILES FROM SHORE

Senate Passes Compromise on to I. I. Board Providing Drainage and Reclamation

(By Herbert Felkel)
TALLAHASSEE, June 1.—(Special).—After Senator Wilson's bill to fix the status of reclaimed lands around Lake Okeechobee, recently formed by the lowering of the lake as a result of the drainage operations, had been debated at various times in the senate during the past week, a compromise substitute was arrived at Saturday morning, adopted and the bill amended passed and certified to the house. The new measure, a codification of the ideas of all the parties interested, though not entirely satisfactory to Senator Hughlett, was not opposed by him. The original bill by Senator Wilson sought to vest the title of these lands in the state but gave the abutting property holders—the people who once owned lake front property but who have been left from 500 feet to five miles from the lake by the receding of the waters—the right to purchase the land in advance of anyone else up to a certain acreage and within a given length of time; while the Hughlett amendment presented yesterday would have given the squatters on those newly created lands the right to purchase provided that they should be permitted to purchase a reasonable acreage at a reasonable price and be repaid for the improvements made there. Senator Hughlett stated that there were between five hundred and a thousand squatters between the former northern shores of Lake Okeechobee and the present shore line who had settled there in good faith. Senator MacWilliams declared that he was sorry for these people and would not liberally do any man an injustice, but that they were state lands and the people went on them with their eyes wide open. "Would you give by legislative enactment the rights of the state to squatters," he asked. The senator declared that these people were like the man who built his house on the sands. Senator Singletary opposed the Hughlett amendment and stated that a member of his house had settled on five hundred acres of these state land for which he had paid no rent or purchase price, and had made so much money on his tomato crop this year that he now wanted to buy a thousand acres of the lands and was willing to pay for them. He was opposed to the state ceding any of its rights to squatters. The bill and the proposed amendment were informally passed over yesterday, and today a compromise substitute was presented and readily adopted and certified to the house under waiver of the rules. It was stated that it was necessary that a bill be passed on the question as to the ownership of these lands, which was causing much feeling and disturbance between the people of that section. The compromise "passes the buck" to the I. I. Board and was passed by the senate this morning. It vests the title in the trustees of the Internal Improvement Fund and provides for drainage and reclamation.

ASKS APPROPRIATION FOR FIGHTING PESTS IN CAMPHOR INDUSTRY

(By Herbert Felkel)
TALLAHASSEE, June 1.—(Special).—Senator Russell's bill to appropriate the \$10,000 a year for two years to eradicate pests now threatening the camphor industry of Florida, contingent upon a appropriation by the federal government, withstood an effort by Senator Crosby to amend it to cut out the appropriation in half and went to the calendar of bills on third reading. An effort by the author, however, to waive the rules and place the measure on its final passage failed to receive the necessary two-thirds vote. The Crosby amendment was lost by a tie vote. Senator Russell said that \$2,000,000 had been spent in this state in this industry, which bids fair to eventually spread all over the lands of this state that have been turpentine and cut over by the sawmill men. He said the camphor industry some day would be the most important business of Florida. Many more millions would be invested in Florida in camphor culture, he declared, if the trees were protected from the pests. He also opposed the amendment to reduce the appropriation.

BILLS FOR COMPULSORY SCHOOL ATTENDANCE TO BE BROUGHT UP TODAY

(By Herbert Felkel)
TALLAHASSEE, June 1.—(Special).—On motion of Senator Hulley, who was excused till Monday, his compulsory school attendance bill and that of Representative Williams of Leon, which were to be considered together Saturday as a continuing order, were made a special order for Monday. The measure in the senate. It has passed the house. The Hulley bill was introduced as a compromise and has passed neither branch.

METAL WORKERS WILL STRIKE PARIS, June 1.—The metal workers in the region of Paris have decided to strike Monday morning.

The secretary of the subway employees' union announced today that all the underground Parisian telephone companies do not grant all the demands of the union.

THREAT OF A NATION WIDE WIRE WALK-OUT BEING INVESTIGATED

Continued from Page One
go forward with preparations for a walk-out sometime in the near future. J. Koenigsmann, president of the Commercial Telegraphers' Union of America failed to reach Washington in time to interview the official. He is the strike subject, but wired a mass meeting held by telegraphers and other electrical workers that "we are being forced into a nationwide strike because of the suffering of the commercial operators for the last thirty-six years." The message asserted that wages paid in all the telegraph systems of the United States failed to keep pace with the increased output secured by newer mechanical and electrical devices, but did not refer to the strike situation. Resolutions were passed at the meeting calling for a walk-out at noon tomorrow of all telegraph and telephone operators in the United States. Western Telephone and Telegraph company, Western Union and Postal systems in Washington, unless Atlantic operators, alleged to be in sympathy, have returned to their places before that time.

HIGHER PAY FOR STATE ATTORNEYS IS PROVIDED

FIVE CIRCUITS AFFECTED BY BILL

No Relief for Duval County, However—Prosecutor Overworked

(By Herbert Felkel)
TALLAHASSEE, June 1.—(Special).—Salaries of state attorneys in circuits of over five counties with a total population exceeding 75,000 inhabitants will be increased from \$2,400 to \$3,000 a year if the governor signs a bill that has passed both houses, all amendments having been agreed upon. The bill was originally drawn by Senator Butler to affect his county only, being general in form but local in nature. It provided that state attorneys in counties over 50,000 population should receive \$4,000 annually. Duval is the only county with such a population, and the state attorney there is hard worked, two judges being employed in that circuit by special act. The bill passed the senate without amendment, but when it reached the house was amended into a general bill. It now affects five circuits but does not relieve the situation in Duval. One amendment changed the population clause to 75,000 for the circuit, another provided that it should affect only circuits containing five counties and a third reduced the salary named from \$3,000 to \$2,400. It was stated that the increase in the five circuits affected was granted to take care of the traveling expenses in the large circuits of five counties. All these amendments were added in the house, and when the bill reached the senate Saturday that body refused to concur, but later in the day Senator Andrews succeeded in securing a reconsideration of the vote by which the senate refused to concur and on reconsideration the house amendments were adopted. This concluded the matter for a reconsideration cannot be reconsidered. The bill goes to the governor.

UNIVERSITY HOLDS ITS COMMENCEMENT; VISITORS ATTEND

Continued from Page One
exercised Monday will include the annual declaration contest between freshmen and sophomores for the medal offered by members of the board of control, beginning at 11 a. m. in the gymnasium auditorium in the university campus. At 2 p. m. the annual luncheon to graduates, faculty and alumni will be given in the university commons. Many former students are expected to make this a home-coming occasion and take part in the festivities. Between 5:30 and 7 p. m. President and Mrs. Murphy will be at home to all the university guests and visitors, holding a reception at the residence, corner of Oak and Seminary streets. At 8:30 p. m. the annual oratorical contest between juniors and seniors for another medal offered by the board of control, will be held at the university gymnasium. Tuesday the graduating exercises will occur, beginning at 11 a. m. in the gymnasium auditorium. All degrees, diplomas and prizes will be awarded at this time and the commencement address will be given by Dr. George Morgan Ward, president of the board of trustees of Rollins College, Winter Park, Fla.

ROAD LEGISLATION HAS NO CHANCE IN LEGISLATURE NOW

Continued from Page One
been overruled and a vote sent him by the senate. General Gordon E. Baker of Company F, army supply train, now in the Philippines, Senator Baker spoke with evident emotion of this son who narrowly escaped death when he was buried under an overturned ammunition train in Germany. Mr. Stokes of Bay paid a fine tribute to a friend slain at Flanders fields. Mr. Worth Trammell was called on and paid an eloquent tribute to American soldiers and sailors. Mr. James of Newnan, Mr. Folks of Marion, Mr. Tichenor of Putnam, Dr. Hamblin of Hillsborough and Senator Russell, all spoke eloquently in memory of the heroic dead. Dr. Hamblin expressing the hope that the world's darkest hours are past and the belief of those who have their lives will help to make the morning stars sing together in gladness.

Senator Russell has a son overseas, now returning with the "Wildcat" division and the paid a tender tribute to the men in uniform and those who sleep on foreign fields. Miss Jefferson Bell paid an American woman's tribute to America's soldiers, saying: "It was the part of the women to hear to, home to wait, and to do that small part given them to do with courage and faith. As an American woman I am proud to pay tribute to the memory of those splendid men who gave their lives that the world might live."

PHILIPPINES ASK INDEPENDENCE
WASHINGTON, June 1.—A memorial asking for immediate and complete independence for the Philippines will be presented tomorrow by the Philippine mission to the United States at a joint meeting of the senate committee on the Philippines and the house committee on insular affairs.
