To our Patrons and the Public: Sec. and Co. Supt. of Supple.

It is with a lively satisfaction

that we return to our kind patrons our thanks for the favors they have bestowed upon us, by which we are able to announce that what was an experiment has now become reality with us. When we first opened.our store in the Town of Tampa it was not without some fears as to the result. There is no fear now, it is an established success beyond venture, and to this success our patrons have so largely contributed. The system promulgated by us has met with universal favor, -- a system of regulating our supply to the demand, and at such prices as make it profitable to both purchaser and seller. Our future arrangements, are based upon the past success, and knowing that our patrons who have favored us and who favor us now, will continue to do so; we are happy to announce to them that we have consummated arrangements that conduce to their especial benefit, and that will enable us to supply and sell goods at rates and prices very low and very acceptable to all. We have ar ranged to receive our goods direct from Southern, Eastern and Western Manuthe appointment of Collector of Revenue for fine Medicinal Liquors &c., and patronage factorics.
