Location and Improvements

Positively Assure

Price Advances

and Consequently

Profits for Investors

That is the natural result when a property well located is consistently developed and complete improvements provided. Advance in prices, increased values are as inevitable as anything can be. This can result in but one thing—and that is PROFIT FOR THOSE WHO BUY WHILE PRICES ARE AT THEIR LOWEST LEVEL. Those are the people who make the largest profits on the least money invested. In the state of Florida today there is no other city development that offers more in this respect than does

Okeechobee Shores

Located on beautiful Chauncey Bay, the Seaboard Air Line, the Florida East Coast Railway and the Cross-State Highway. Its marvelous location alone assures it a great future, but even this is to be much greater than anticipated through the execution of an immense improvement program NOW UNDER WAY. Men and machinery are NOW ON THE GROUND doing this work and will continue until the magnificent city of Florida's inland empire is complete.

HERE truly lies the investors' opportunity in Florida today. Many can look back now and see opportunities they passed up, many can see opportunities they must pass today—all for the reason that it requires too much money to handle them. The logical thing to do then is to come in on the ground floor of a rock-bottom investment and reap the harvest that is sure to come with the increased prices. Okeechobee Shores, a complete and modern city in every particular, in one of the choicest spots in the South, is our aim. It is your supreme opportunity today.
