

*“Far from the  
Madding  
Crowd”*

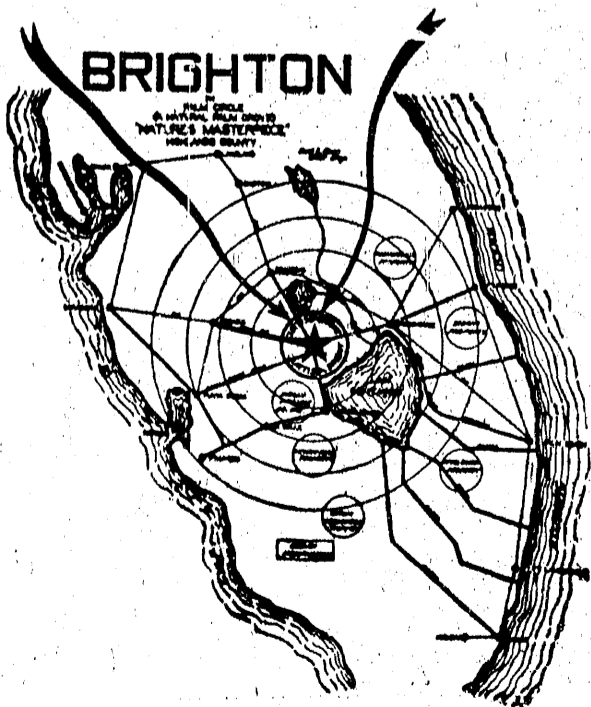

**HERE** people of refinement who prefer being somewhat removed from the lighter activities of resort cities, can find rest and entertainment of a more leisurely sort.

There is good fishing at **Brighton**; and a fine hotel, because of its setting amid a fringe of palm trees, called Palm Circle Inn. Good duck shooting awaits you at Lake Okeechobee, and other diversions are provided at the Inn.

# BRIGHTON

*“Nature’s Masterpiece”*

**T**HERE is nothing strenuous about Palm Circle Inn or Brighton, unless you want to make it so. The Inn is new this season and delightfully appointed.

Brighton townsite is being developed along the most modern lines.

Everything man-made is new, everything else is centuries old.

**I**T may be a year or two before Brighton is a seething city. But if the present plans carry, Brighton will find that it has become the trading center of the greatest and most profitable truck-farming, poultry-raising and dairying section in the South.

In which event, present prices for Brighton property will go higher by leaps and bounds.
