

OKEECHOBEE - HUB of FLORIDA

The entire State of Florida is pulsating with life—energy—progress—prosperity.

At the very heart of this hectic development — the greatest the world has ever known—lies OKEECHOBEE.

One year ago this thriving young city of central Florida had less than 2,000 population. Today its population is close to 5,000.

It is freely predicted that OKEECHOBEE will have a population of 25,000 in three years.

In making your investment you must consider location, surrounding territory, transportation. OKEECHOBEE has all of these. People who invested in Okeechobee one year ago have realized as high as 1,000 per cent on their investments.
