**Only 2 o'clock ~
Yet tired
in every
Muscle ~**

Does early afternoon find you all tired out—dreading the work that must be done before evening?

Ordinary work ought not to exhaust any one. When it does, almost always impure blood is to blame. Blood poisoned by dangerous acids and other impurities cuts down your energy—makes everything you do a great deal harder. And this condition, beginning with merely feeling tired, soon leads to indigestion, rheumatism, frequent headaches, kidney trouble—or sometimes even to paralysis.

Begin now to clear up and purify your blood. Your druggist can tell you how hundreds of worn-down men and women have revitalized their blood with Taylor's Blood Medicine.

Taylor's Blood Medicine is made of pure vegetable medicinal ingredients, so compounded that it purifies your blood in a surprisingly short time. This is why it is so widely recommended for the relief of rheumatism, kidney trouble, indigestion, fatigue and all those ailments which come from thinned-out, sluggish, unclean blood. It is pleasant to take and makes you feel comfortable immediately.

Get a bottle of Taylor's Blood Medicine today. If it doesn't quickly build you up, your druggist will give back the dollar you pay for it.—Taylor Medicine Company, Tampa, Florida.

**NO MORE
RHEUMATISM**

Mr. Arthur D. Lynn, for thirty years a resident of Tampa, Florida, says:
"I had suffered for years with rheumatism in my arms, fingers, and lower limbs. In addition to that my stomach was in very bad condition and very few foods agreed with me. My ailments increased day by day until I was finally 'down and out.'"
"I started taking Taylor's Blood Medicine. Today, I am only too glad to recommend Taylor's Blood Medicine to all sufferers of rheumatism and stomach trouble."

**Ocean
Front!**

"In the heart of Florida, through which pass all arteries of trans-state traffic"

Profits

PROFITS are largest and quickest, and investments are safest and most secure when one buys at low pre-development prices properties whose rapidly increasing values are assured by strategic location as a shipping and trading center for a region of superlative productivity, intended by Nature and by Man to become the garden lands of millions. Less than a year ago OKEECHOBEE ESTATES were regions rich in promise of prosperity and profits, but practically cut off from easy contact with the outside world. Then the transformation of new railways, highways, waterways! The ONLY trans-state railways in southern Florida (with another one surveyed), the ONLY improved coast-to-coast highway (with a network of tributaries at Okeechobee), TWO trunk lines into the north (with another to come soon), a rail connection being rapidly constructed into Miami, waterways to ocean and gulf—these make the Okeechobee regions the junction point of all Florida!

Virginia Park

VIRGINIA PARK is a model, modern subdivision, with lots of exceptional size laid out along 100-foot boulevards and broad avenues, with plenty of parks and recreational facilities provided. Adjoining it is the site for an extremely attractive golf course and country club, on which the owning-development company expects to start building this summer. Yet lots in Virginia Park have been priced as low as \$100! Easy payment terms are offered.

Tropic Gardens

TROPIC GARDENS form a distinctive development in which five-acre and ten-acre estates border on 100-foot boulevards and are offered at the price of adjoining wholesale acreage, uncrossed by thoroughfares. VIRGINIA PARK, TROPIC GARDENS and other units of OKEECHOBEE ESTATES are all high and dry, and lie directly in the middle of such holdings as those of Curtiss-Bright, Hialeah Realty Company, W. J. Conners, J. S. Cosden and the Rockefellers.
