

# SUMMER RESORTS, HOTELS AND EXCURSIONS

## AWMUCH OF INTEREST ON EAST COAST VISIT

### TAMPA WOMAN DESCRIBES HER TRIP

(Mrs. E. J. Soule.)  
(Special) Let us hope that you may find room in the columns of this paper for a description of a trip by the writer to the Eastern Coast.  
After spending two delightful weeks at the home of J. S. Daughtrey, in Union City, a prosperous little town about five miles from the beautiful city of Miami, where I enjoyed the cool Atlantic breezes, the delicious tropical fruits and the most luscious watermelons I ever tasted anywhere, I never before produced melons at this season, and having with me the opportunity to note the rapid growth of this beautiful place which is laid off avenues, A. B. and C. "Biscayne" being the main street or drive. A \$75,000 school building will soon be started there, also many other buildings and costly residences, among which is the home of W. B. Ogden, magnificent home built entirely of the native Miami rock, and hedged by grove of cocoanut trees which overhang the waters of Bay Biscayne. In company with my nephews, Spencer Whitney, and his two sisters, Katherine and Gussie, I attended a unique reception at the home of J. W. Teters, headed by his accomplished daughter, Miss Gladys, to Miss Lelu Brown and Miss Jessie Morgan, of Tusculum, Tenn. The evening was delightfully spent. The spacious veranda decorated by nature's own hand, with golden salamanders, trailing Japanese pines and honey suckles, made a fitting frame for the smiling faces of a happy young couple with their reception. An automobile ride about the city and around the lakes.  
Evening Reception for sponsors and maids of honor at the home of Mrs. A. H. Darracott.  
October 28th  
Assembly at Auditorium, 9 a. m. 9 to 12—Business session.  
12:00—Adjournment for dinner.  
Afternoon Session  
2:00 to 4:00—Business session.  
4:00—Autonobile ride about the city and around the lakes.  
Evening Reception for sponsors and maids of honor at the home of Mrs. A. H. Darracott.  
October 29th  
Assembly at Auditorium at 9 o'clock.  
12:00—Adjournment for dinner.  
Afternoon Session  
2:00 to 4:00—Business session.  
4:00—Band concert in park.  
At night a ball in honor of the veterans.  
October 30th  
Assembly at Auditorium at 9 a. m. 9:00 to 12:00—Business session.  
12:00—Adjournment for dinner.  
Afternoon Session  
2:00—Parade of veterans, headed by Lakeland Band, city officials, etc.  
two miles from his homestead. In order to have a postoffice he carried the mail this distance two years at his own expense. At that time his nearest neighbor was eighteen miles away. They have raised a family of eight children here, and in order to secure a school at his place, he gave board to the teacher and a number of children make an average, even providing their clothing and the tobacco used by the boys, all free of charge, having at his own expense, he built the lumber thirty-six miles to build the schoolhouse. His first permanent neighbor was his oldest son. Then he gave to a brother a tract of land for which he paid \$250, but which afterwards proved to be the best land. In order to start a settlement and increase the number of school children, Mr. and Mrs. Raullison occupy the same old home, having added several rooms and verandas. The house is a first grade certificate and well equipped inside, making both modern and antique. This interesting home is in the very center of one of the most beautiful flower gardens in Palm Beach County, consisting of every variety of tropical flowers.  
Beautiful Homes and vines shut out the rays of the morning sun and enable one to sit for hours and enjoy the cool breezes which are ever blowing from the lake, which is about two miles away. The culture and refinement of this pioneer home gives proof that a man need not be wild because he happens to be in a wild country. A beautiful and accomplished daughter, a graduate of the University of Tennessee. A niece who is a graduate of the Miami High School holds a first grade certificate and will teach in this school this term, are the living evidences of what can be done with enough energy and pluck. As the young daughter's name is Faith one naturally understands where lies the great secret of their success. Faith in God.  
The home is unique in all its details. The parlor would well compare with some of our modern city drawing rooms. An upright grand piano, four cornets horns, on which the two young girls and their two young mothers play, while the upholstered mahogany furniture is evidence of refined taste and culture.  
Last but not least is the table which is perfect in all its appointments. Sumptuously supplied with fresh milk and cream, honey, and fruits, jellies and jams, of all varieties all of which the grown on the farm.  
There is a railroad completed to within a few miles of this place, which gives great hope of its early development. People from many States are coming in and buying up the lands which sell from \$50 to \$100 per acre, and Mr. Raullison's homestead has been laid out in town lots. He and his faithful wife can see in the near future a great reward for their long years of lonely and patient toil. Some miles out on the lake, is the center of one of the greatest fishing grounds in the State.  
Here are caught daily from twenty to thirty thousand pounds of catfish which are shipped via the Everglades Canal to Ft. Lauderdale, where they are packed and forwarded to Western markets. From one thousand to fifteen hundred gallons of gasoline are said to be consumed on the great lake daily. There are more than five hundred men engaged in this enterprise yet it is estimated that this might go forward for many years and still not exhaust the supply so numerous are these fish in these great waters of Lake Okechobee.  
The beach which is one of the finest in the world is about 200 yards wide and over 100 miles long. This great lake, whose waters bathe the shores of five counties, is surrounded by a

## INTERESTING PROGRAM FOR REUNION OF U. C. V.

### LAKELAND WILL STRIVE AS HOST

## FUTURE ENCOURAGING TO FLORIDA GROWERS

### MAY GO FULL LENGTH IN PRODUCTION

Marketing Bureau Just Established  
Regarded As a Good Thing

ARCADIA, Sept. 26.—The Arcadia Enterprise has the following article:  
Vegetable growers throughout Florida have every reason to feel encouraged and should not hesitate to go their full length in producing the various crops known to the trucking interests of the State. The organization of the Florida Vegetable Marketing Bureau at Jacksonville last week, will, we feel sure, remove the stumps in the road between the grower and the markets. The new organization, headed by prominent and influential men of the State—who have the interests of the truckers at heart—is going to prove an awakening to the vegetable interests and it is to be hoped and expected that all growers, both large and small will promptly align themselves in the movement to bring about lower express rates and a more vigorous market. The success of the organization means the success of the growers, hence co-operation is the only thing needed.  
The bureau is getting results now, although in existence less than a week, and it is going to get still greater results when its machinery gets in full working order. If the vegetable grower will line up, that he can quickly remove every obstacle and win a victory that will put them on the pinnacle of independence, and instead of bowing to railroads and commission men they will have the railroads and commission men bowing to them.  
The reduced express rates on vegetables, a cut of 15 to 20 per cent, that is promised by J. B. Hockaday, general manager of the Southern Express Company, and the proffer of the express company of some 5,000 agents in as many small towns about the country, to solicit and take orders for shipments of vegetables, is reason enough to look to the future optimistically.  
The growers have suffered long on account of not being able to get beyond the walls of the commission concerns into the smaller markets, now "undiscovered" territory, because of the shipping overstocking them, and neglecting and thereby losing the smaller markets, that they are now ready to get together and stay together by express.  
With the express agents throughout the country taking orders for delivery of less than car load lots, in the smallest towns, and sending these into the central bureau, then can be promptly filled, and a wide distribution of Florida produce secured. As it is and has been the vegetable' are sent to the large cities, where the market is flooded, while on the other hand, the smaller towns cannot get vegetables.  
The express company, of course, expects to get increased business on the part of their agents, and by the cutting of express rates on vegetables. The vegetable business is a large one—last season about 25,000 car loads were shipped out of the State. This does not include the produce shipped by express. A large item, made up of many small shipments of a few packages.  
Shipping vegetables by express, has the strong point of getting the produce to the market quicker and in better condition, and while the rate is higher, the difference, but the main benefit from the express company's move to benefit the vegetable grower is that the agents, if they display any activity, will maintain a more constant demand for vegetables Company's lines.  
At present the truckers are getting their seed beds ready for the new crops. Shipments begin in November and December, and are heaviest in January and February. Florida's principal vegetable crops are tomatoes, celery, lettuce, potatoes and strawberries, with many other vegetables that can be raised and are raised each year in increasing numbers and quantity.  
To the strawberry grower, the new movement and the reduced rates will prove a godsend, as the rate for shipping strawberries shipped out of the State go by express.  
beautiful forest of cabbage trees and black cypress, with an underground of Boston fern, wild collins, poinsettias and some fine orchids.  
The sunset scenes on Lake Okechobee would gratify an artist's wildest dream. For hours one may gaze on the everchanging colors, while the sparkling waters reflect their magnificence.  
The people of this place are looking forward to the completion of the new railroad as a quicker means of transportation for their products, and this will be a means of the opening up of one of the wildest but one of the richest sections of the whole State of Florida. I am here with my

PETER P. SCHUTT, Manager.

**BRAVE GIRL BALKS TRAMPS.**  
Whips One and Puts Two to Flight  
On Her Father's Farm.  
LAFAYETTE, Ind., Sept. 26.—Hazel Lincoln, eighteen years old, battled with three tramps at the home of her father, James Lincoln, eight miles south of Lafayette. The parents were away from home and the girl was left to care for a baby sister. Three tramps appeared at the door and asked for food. When told that there was no food they demanded money. When she refused the men became angry and one of them seized the baby and told the girl he would kill it. Miss Lincoln rushed at the tramp and tried to take the baby away from him. Her efforts for help frightened away the other two tramps and she finally succeeded in getting the baby away from the third. Sheriff Slayback and posse succeeded in capturing two of the tramps.

**SAYS SULPHUR IS SURE TO RELIEVE ITCHING ECZEMA**  
Get an Ounce of Bold-Sulphur Cream and Heal Skin Eruptions Right Up  
Any breaking out or irritation on the face, arms, legs or body when accompanied by itching, or when the skin is dry and feverish, can be relieved by the use of Bold-Sulphur cream, says a noted dermatologist.  
He informs us that bold-sulphur instantly allays the angry itching and irritation and soothes and heals the eczema, gets rid of the itching, makes the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasite-destrorying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the eczema away and it is often years later before any eruption again appears on the skin.  
Those troubled should obtain at any pharmacy an ounce of "bold-sulphur cream" in the same manner as an ordinary cream. It is a very simple and the prompt relief afforded, particularly in itching eczema, proves very welcome.

**NOTICE**  
City licenses are due and payable October 1. J. L. HOLLINGSWORTH, 108-151 City Collector.

**NOTICE**  
All parties holding stock in the Ybor City Building and Loan Association are required to present the same to the receiver at his office in the Pettway Building or verification in order that dividend may be paid immediately after October the first, in accordance with the order of the court. **Stop! You Bad Blood Man**  
Make Your Blood as Clean as a June Brook With Hot Springs Blood Purifier  
A member of the English Parliament once said, "The first ship that lays a cable across the Atlantic Ocean I will ride." Fulton was jeered for building a steamboat. The Wrights were called crazy for their allegiance to the idea that heavier than air craft could be made to fly. Now people at last have dropped their scepticism and are turning to Hot Springs Blood Purifier for all blood diseases.  
Fancy a city whose sewage system plugged; fancy the sewage backing up to the cellars and drain pipes; fancy your toilet material, etc., the free from fancy the same system that is plugged up and has a stream of pure health-giving water running through it, driving off all odors, all stench, all dirt. Your blood is your health, the death of your blood is your dissolution. Hot Springs Blood Purifier is a natural way of cleansing the blood. It simply opens the body sewers, carries away the toxic matter, sweetens the blood, and the system is clean.  
Why will men doubt other men? Why will you deny the coupon below, when I have ask you to fill in the coupon, enclosed with 10c in stamps or silver, and you will send me the Hot Springs Blood Purifier. Enclosed find 10c to help defray postage and packing.

**SOFT FLUFFY HAIR IS FIRST AID TO BEAUTY**

Who does not love a head of pretty hair? Some women think it is a gift of nature and envy their more fortunate sisters. If your hair is not fluffy, soft and lustrous, it is falling out, streaked, faded, brittle, or full of dandruff, and if the scalp itches, do not think it must always be that way, for pretty hair is only a matter of care and proper nourishment of the hair roots. Hair is something like a plant—if neglected it soon withers and dies, while with a little attention it keeps fresh and beautiful.  
Parisian Sage is a scientific preparation that supplies just the elements needed to invigorate the hair roots and stimulate the hair to grow long, thick, fluffy, soft and lustrous. It removes dandruff with one application and quickly stops itching head and falling hair. It is the ideal hair tonic and scalp treatment for men, women and children—contains nothing injurious and is delicately perfumed.  
Cotter's Drug Store or any drug or toilet counter can supply you with Parisian Sage—it is inexpensive. You cannot be disappointed with this delightful and helpful hair tonic, for it surely will give the hair the beauty and charm of youth.
